

**WEST AFRICA HVACEXPO 2017 - INTERNATIONAL HEATING, REFRIGERATION, AIR CONDITIONING,
INSTALLATION SYSTEM, WATER TREATMENT AND INSULATION EXHIBITION**
13 – 15 JULY 2017

West Africa HVACExpo Prepares to Be Best Place for HVAC Sector in Africa!

International Heating, Refrigeration, Air Conditioning, Installation System, Water Treatment and Insulation Exhibition, Nigeria HVACExpo will be held between 13-15 July 2017 at the Landmark Center in Victoria Island, Lagos.

Heating, refrigeration, air conditioning, installation system, water treatment and insulation sectors have shown growth potentials in Africa. Demands increase and this reflects on import and foreign investments. As a result of these facts, HVACExpo Nigeria is organized by Elan Expo.

HVACExpo Hosts Sector Leaders

HVACExpo offers international trading platform for its visitors and attendees. **PANASONIC, DAIKIN, SAMSUNG, SIEMENS, CARRIER, LG** already took their places in this pioneer exhibition in Nigeria.

HVACExpo will be the best platform to meet target segments for both companies existing already in African Market and the new ones that want to be in the Africa market. Exhibitors from different countries and visitors from not only Nigeria but also other countries in Africa and the world come together in HVACExpo during 3 day period, 13-15th, July. Moreover, this important event gives opportunity to see latest developments, trends, and technologies in the sector, all over the world with different exhibitors from U.S.A to Germany, China, India, etc. Participating companies, with our platform can reach wholesalers, dealers etc. to present their products and make business partnership agreement.

HVACExpo that organizes a platform with sectorial basis offers wide range of product to its visitors. Visitor can examine the product for different segments. Besides that, they can also make comparison of product, services and prices and find best alternative for them in HVACExpo. During the exhibition, special events and discounts wait visitors.

Latest Technological Knowledge will be shared in the workshops

Workshops and educational seminars will be organized for engineers in HVACExpo. Engineers and technicians who attend the workshops and seminars can develop themselves with learning latest technologies during the exhibition. Given certificates and information to attendees will be good outcomes for their portfolios.

If you want to be a part of this lucrative project please visit Nigeria HVACExpo on 13-15 July in Landmark Centre Victoria Island.

Elan Expo adds new success with HVACExpo in its 20 years exhibition experience. Elan Expo with its exploits in organizing exhibition in more than 30 countries, aims to reach potential and powerful sectors in countries.
