MEGA CLIMA NIGERIA

10TH INTERNATIONAL AIR CONDITIONING & REFRIGERATION EXHIBITION

6-8 JULY 2027

LANDMARK LAGOS - NIGERIA

PRESS RELEASE

Mega Clima Nigeria Celebrates Its 10th Edition as West Africa's Leading HVAC+R Business Platform

West Africa's premier HVAC+R exhibition returns to Lagos on 6-8 July 2027, bringing together global manufacturers, industry leaders and policymakers to accelerate sustainable cooling across the region.

Against the backdrop of accelerating urbanization, expanding infrastructure investment and growing demand for sustainable cooling technologies, **Mega Clima Nigeria** will return for its landmark **10th edition** from **6-8 July 2027** at the **Landmark Event Centre, Victoria Island, Lagos**.

Organized by **Elan Expo**, Mega Clima Nigeria has evolved into West Africa's premier international exhibition for heating, ventilation, air conditioning and refrigeration (HVAC+R), bringing together manufacturers, distributors, engineers, contractors, consultants, investors, government institutions and decision-makers from around the world.

As Nigeria's air conditioning market is projected to continue strong long-term growth, the exhibition provides an important platform for technology transfer, commercial partnerships and sustainable infrastructure development throughout the region.

A Decade of Connecting Global Innovation with West Africa

Celebrating its tenth edition, Mega Clima Nigeria has become one of Africa's most influential B2B meeting points for the HVAC+R industry.

The 2026 edition achieved record participation, welcoming:

- **107 international brands**
- **6,400 professional visitors**
- **22 exhibiting countries**
- **13 technical conferences and panel sessions**

The exhibition attracted manufacturers, technology developers and solution providers from Belgium, China, France, Germany, Ghana, Hong Kong, Hungary, India, Ireland, Italy, Japan, Lebanon, the Netherlands, Nigeria, Pakistan, Portugal, South Africa, South Korea, Türkiye, the United Arab Emirates, the United Kingdom and the United States.

This broad international participation demonstrates the increasing strategic importance of Nigeria as one of Africa's fastest-growing construction and infrastructure markets, while reinforcing Mega Clima Nigeria's position as the gateway to business opportunities across West Africa.

Beyond exhibition stands, the event generated thousands of face-to-face meetings between manufacturers, distributors, project developers, consulting engineers, contractors and procurement professionals seeking long-term commercial partnerships.

Industry Knowledge Driving Regional Development

Mega Clima Nigeria continues to distinguish itself through its extensive conference programme, which addresses both technical innovation and the practical challenges facing the African market.

The previous edition featured **13 expert-led conference sessions**, attracting professionals from across the HVAC+R value chain.

Topics included:

- Sustainable cooling strategies
- Energy-efficient building technologies
- Green refrigerants and environmental compliance
- Smart buildings and digital transformation
- Cold chain infrastructure
- Indoor air quality
- Workforce development
- Industrial refrigeration
- Project delivery in emerging markets

The conference programme is supported by a wide network of respected institutions including:

- ASHRAE Nigeria Chapter
- ISHRAE
- Federal Ministry of Environment
- National Ozone Office
- Standards Organisation of Nigeria (SON)
- Nigerian Society of Engineers (NSE)
- Nigerian Institute of Water Engineers (NIWE)
- REDAN
- NACCIMA

This collaboration between industry, government and academia reinforces Mega Clima Nigeria's role as an important platform for knowledge exchange and policy dialogue.

2027 Exhibition to Spotlight Next-Generation HVAC Technologies

Visitors to the 2027 edition will discover the latest advancements in sustainable building technologies, including:

- High-efficiency HVAC systems
- Variable Refrigerant Flow (VRF) technologies
- Commercial and industrial refrigeration
- Smart building automation
- Indoor air quality solutions

- Energy-efficient ventilation
- Heat pump technologies
- Cold chain logistics
- Building insulation systems
- Refrigerants with lower environmental impact
- Water purification and treatment technologies

Co-located with the **9th Nigeria Mega Water Expo**, the event will provide a comprehensive platform covering climate control, environmental technologies and water infrastructure under one roof.

A Message from Nihat Suer AY, Managing Director of Elan Expo

"Ten years ago, our vision was to establish a meeting point where international manufacturers could connect directly with one of Africa's most dynamic and promising markets. Today, Mega Clima Nigeria has become far more than an exhibition it is a business ecosystem that supports investment, encourages innovation and creates meaningful partnerships across the HVAC+R industry."

"West Africa is entering a new era of urban development, industrial expansion and sustainable infrastructure investment. These changes are creating unprecedented demand for energy-efficient cooling systems, modern building technologies and highly skilled engineering solutions. Mega Clima Nigeria exists to bring together the companies, technologies and expertise that will help meet those challenges."

"As we celebrate the tenth edition of Mega Clima Nigeria, we remain committed to providing an international business platform where manufacturers, distributors, consultants, contractors, policymakers and investors can build long-term relationships that contribute to the sustainable development of the region."

"We sincerely thank our exhibitors, sponsors, industry associations, government partners and thousands of visitors who have contributed to the success of Mega Clima over the past decade. We look forward to welcoming the global HVAC+R community back to Lagos in July 2027 for what will be our largest and most impactful edition yet."

Mr. Nihat Suer AY
Managing Director, Elan Expo

International Exhibitors Continue to Recognize the Event's Value

The exhibition continues to receive strong endorsement from leading international manufacturers.

One such example comes from **Toshiba AHI Carrier UAE**, whose team participated in the previous edition:

"Mega Clima Nigeria was truly memorable and rewarding, providing valuable industry connections and an outstanding opportunity to showcase Toshiba's innovative HVAC solutions. Receiving the Best Booth Design Award was a proud achievement for our team, and we were delighted by the strong interest shown by visitors throughout the exhibition. Events like Mega Clima continue to strengthen partnerships across the region, and we look forward to returning."

Why Nigeria?

Nigeria remains one of Africa's largest economies and one of the continent's fastest-growing construction markets.

Rapid urbanization, commercial real estate development, expanding manufacturing capacity, healthcare investment, hospitality growth and increasing demand for cold chain infrastructure continue to drive significant opportunities for HVAC+R suppliers.

Mega Clima Nigeria provides international companies with direct access to distributors, project owners, government buyers, consulting engineers and contractors actively shaping West Africa's built environment.

Event Information

Mega Clima Nigeria 2027

Dates: 6-8 July 2027

Venue: Landmark Event Centre, Victoria Island, Lagos, Nigeria

Opening Hours: 10:00 AM – 5:00 PM

Co-located with **Nigeria Mega Water Expo 2027**

About Mega Clima Nigeria

Mega Clima Nigeria is West Africa's leading international exhibition dedicated to heating, ventilation, air conditioning, refrigeration and sustainable building technologies. The exhibition serves as a strategic business platform connecting global manufacturers with buyers, distributors, consultants, contractors, engineers and policymakers from across the African continent.

About Elan Expo

Headquartered in Istanbul with regional offices across Africa, **Elan Expo** is one of the leading international organizers of specialized B2B trade exhibitions in emerging markets.

The company organizes more than **19 international exhibitions annually**, connecting thousands of exhibitors and professional visitors across strategic sectors including HVAC+R, water technologies, construction, ceramics, interior design, food processing, electricity and agriculture.

Through its exhibitions, conferences and hosted buyer programmes, Elan Expo creates high-value business opportunities while supporting sustainable economic development throughout Africa.
